Description;

This project is a Beykoz housing project that provides fascinating energy to your home. The project is constructed in Cubuklu right next to **Beykoz Forest**, one of Istanbul's oxygen heavens. Flat options where you can travel green with inspiring living spaces are developed under the assurance of a reliable construction company.

The project, located next to the forest and its lake, is a housing project right in nature. Get ready for a natural world where a boutique life is set with only **219 units of luxury flats**! You will have a social life full of beauties with an ornamental pool, tennis court, children's playground, fitness center, indoor swimming pool, yoga areas, and relaxation areas.The project includes 2+1 3+1 4+1 5+1 types of apartments.

The project is developed in a green area where you will breathe the cleanest air of Istanbul. A boutique living space in nature will please you in every aspect. Turkey's real estate sector provides more than you expect. If you want to get information about Istanbul residential projects, contact us and take advantage of TURQUA INVEST consultancy services.

Green Journey Begins with the Project

A life full of oxygen that you will start the day with clean air waits for you in Beykoz. The dream of everyone living in the metropolis is to live in a house providing fresh forest air. Your dreams will come true with the project. Beykoz is one of the most natural regions of the Asian Side.

With its privileged location, the project rises right next to the forest, right in the city center. Istanbul, which has the status of a city that lives day and night, offers an oxygen-filled living space with the Beykoz housing project. Since the project is only 1 minute away from the forest and lake you will enjoy the comfort to the fullest.

Also, it has never been easier to cross from the Asian Side to the European Side! By the sea with ferry services between Cubuklu and Istinye; the residents will be able to easily reach whenever they need.

Privileged Location

There will be several advantages in terms of location as well. It is 2 minutes from TED College, 3 minutes from Cubuklu-Istinye Ferry Station, 4 minutes from Kavacik, 14 minutes from Levent and Maslak, and 20 minutes from 15th July Martyrs Bridge. Thanks to its proximity to the bridges and the ferry station, you will have a privileged life where you can go to Istinye Park Shopping Center within minutes.

Located right next to the forest, the Istanbul real estate project still didn’t do any harm to the forest. Furthermore, the project, which has the highest square meter of green space per person, includes houses with garden floors. With the garden floor apartments, you have a green living space where you will open the window of your house to the forest. Moreover, all apartments in the project have a balcony option. A boutique life, where you will enjoy the beautiful view, is waiting for the buyers in Beykoz.
