Description;

This project is a residential project developed by a reliable company. The building, which is among the Beylikdüzü housing projects, draws attention with its sea view apartment options. The project draws attention with its modern lines on a land area of 26,893 square meters in Yakuplu, Beylikdüzü. There are 330 residences in the project, which consists of 20 blocks.

Beylikdüzü house project draws attention with its large green areas. With the project, of which 19.5 acres is set as landscape, you will be satisfied with natural areas and greenery. The project, which has wide green areas, has 19.5 acres of landscape and a total project area of 26,893m². The project is among the remarkable home projects of Istanbul with its clean air and modern design.

The project rising in Beylikdüzü adds value to both your quality of life and your investment. In the project, which was designed in accordance with the concept of the region in which it is located, the quality of the products is crowned with the craftsmanship of expert hands. The project offers you the spacious life you miss with its short-floor design and modern lines.

Thanks to the original architecture of the project, which was developed by a reliable company, you have a wide panoramic view where you can see the sky, the sea or the green whenever you want. The project is one where everything you need is designed, world brand products are used in every detail, and all apartments are decorated with a sea view.

Beylikdüzü project offers answers to every need with 2+1, 3+1, 4+1 flats – duplex options and square meter alternatives. With the project that meets the blue of the Marmara Sea, everything you need is gathered under one roof. You are opening the doors of a comfortable and luxurious life with the projects that make the Sea of Marmara your vanishing point.
