Description;

This project is located two km from Alanya. It's a well-developed neighborhood, with all the urban infrastructure, but it is mostly famous with its nature and pure oxygen. It is an ecologically clean area with the world famous beach of Cleopatra. The freshest fruits, vegetables and natural products can be found in stores, as well as in markets open on certain days of the week. In the center of Alanya there are 5 hospitals and polyclinics, 15 pharmacies, 8 veterinary clinics and dental clinics. There are also branches of international freight companies within walking distance of our project. It is a very popular area for investment, as well as for quiet everyday life in nature.

The project is built on a total area of 2014 m² and promises you a healthy life surrounded by panoramic views of nature and a lot of pure oxygen. In order to have a pleasant time, the complex has fitness, sauna, children's playground (outdoor and indoor), swimming pool, car park, camellia and barbecue

Our project is only 4 km from the center of Alanya and 3.5 km to the sea. In addition, our project is within walking distance of chain stores such as Migros, Carrefour, A101 and Bim. We are ready to give you a presentation and research with our professional team.
